

## Second Review of Scottish Parliament Boundaries Draft final report

### For discussion

1. The Commission considered the draft front section of the final report and a sample of appendices at the November and December 2024 meetings.
2. Attached at Appendix A is the first draft of the full final report which has been produced by APS. This draft is subject to discussions at this meeting and will be updated after the next steps are completed. The Secretariat is currently working through this first draft and noting amendments.
3. Regarding consultation responses, please note that an exact figure has not been provided in the final report. Categorising what constituency or region each consultation response relates to is not an exact science so this can result in variances.
4. The tables contained within the front section of the final report lists all the constituencies and regions and the position prior to the 10 March 2025 meeting. The Commission is asked to confirm the current position, subject to further discussions at this meeting.
5. For information, Commissioners may wish to view the report from the First Review - [First Review Final Report](#).

### Conclusion

6. The Commission is invited to consider the draft final report. The Secretary is happy to receive comments both before and after the Commission meeting.
7. After this meeting, the final report will be updated further and shared. Commissioners will then be asked to approve the final report either by email or during an online meeting.
